

Company Announcement

28th September 2020

New distribution facility for Heatseam / Likewise

We are pleased to advise that we have reached agreement to move to new premises located in Morley.

The new distribution facility will allow us to exit both Calder Bank and Ravensthorpe Road to enable all operations and administration to be located on a single site.

This will create a much improved working environment for all staff, in addition to significantly enhanced material handling for all aspects of warehousing.

There will be a phased move to Morley from December, with the intention to be fully operational during January 2021.
